6th Housing Land Release, Mount Cilead

Department of Planning
Received

4 NOV 2015

Scanning Room

P.O. Box 39 Sydney NSW.

Dear Sir/Madam

It is not Australian to destroy our Heritage

Please do not develop Mount Cilead farmland. This is essential meat and food producing land. As a 6th generation Australian I do not want to eat American beef, New Zealand lamb and then import infected apples, Asian chicken and fruit.

This is not an area of high rainfall as it will be necessary to pump from the aquifers in this district - nothing Peter to pay Paul.

Mornings & evenings there is a roaded house to or from Sydney and I must go to night before for a morning appointment. Trains are not an option. This is an ill conceived exercise which will only put money in the pockets of Councils, public servants and developers and will destroy the lives and farms of surrounding primary producers.

2. These expenses are paid for with
taxpayer's money. Your Department has an
obligation to use this money responsibly. How
many millions has this cost already.
Does no one care to understand the
gravity of this matter?

This is Australia not Hong Kong.

Yours faithfully

A. L. Hayman (M.A.)
