Dear Sir/Madam,

Will you please send me information on the proposed land releases in Menangle Park and Wilton Junction as I have property in both areas.

Rail public transport should be a priority and this could be done by extending the electric line to Menangle Park where there is a third platform that has been there since W.W.I. and is in good condition. On off ramps on the highway at Menangle Park would give access to it from Wollondilly and the Southern Highlands. If plenty of parking was available, including long term safe parking, this could ease traffic on Macellon Rd, etc and the M5.

Picton station will not cope with the proposal for Wilton Junction.

Will there be public meetings at both Menangle Park and Wilton?

About half a kilometre of my boundary joins the Wilton Junction area boundary but is not in it. At present it is limited to 40 acre minimums. Will these change?

Thank you.

Yours faithfully,
