

To Planning department,

I would like to say that your draft proposal on the showground precinct was very well thought through. I was really impressed by the detail and structure of the plan. Its great to see you are allowing for decent growth in this area. It is also so close to Castle Towers shopping centre which is about to be the second biggest in Australia. I think with all the high rise apartments close to the station is a great idea as we need people to live close to the station so they can use the train. The showground will be a lovely lively trendy place to live with some nice restaurants and bars and also still have the large showground field for events. Apartment living is the way of the future as we all live such busy lives. I found the hills shire council were way to conservative in their draft, there would be no one using the train! Most residents were against the councils proposal. Well done on a great draft plan!!
