

Mamre West Rezoning Proposal

To Whom it may concern

My name is David Egberts I am the son of John and Linda Egberts and we live happily at 575 mamre road orchard hills.

This rezoning, as I understand, would impact us heavily because it would force an unwanted acquisition of the land which we own and currently live on. It is something that is uncalled for and not totally necessary. This inconvenience would uproot the lives of my parents and four siblings causing us to move and resettle into a new location in the local area as our lives are based in the Penrith district.

This is something that will cause our way of living to be affected as the financial strain and physiological pressure that would be put upon us at the hands of the government is uncalled for. We are tax payers and we abide by the rules and standards of the Australian government and for them to uproot our lives and acquire the land which we call home is a great disturbance to my family and myself.

Having moved houses on 3 separate occasions in the last 10 years I can say that it is not easy. As our family size increased so did the required amount of living space which finally led us to the land which we live on now. After waiting 2 and a half years for our house to be built buy Beechwood during their bankruptcy, the stress of settling has had a burden on our family and now after 7 years of slowly settling in to our new spacious home the government seeks to acquire the land for a road and future developments in the area.

This is a disturbance to our way of living and there is a large sentimental value attached to this land. To be uprooted and moved again is a massive inconvenience and I hope that these points risen here are considered appropriately when trying to acquire this land from us. I know that the government have a tendency to get what they want and in this case it does seem inevitable that they will obtain this land so I hope that my personal, emotional and physical ties to the property are taken into careful consideration.

Regards

David Egberts
