FW: Warnervale Jet Airport

Dear Director

I believe there is evidence to show there is no place for a Jet airport in the Wyong area particularly at Warnervale , Wyong Council's latest airport location .This location ,in SEPP14 Porters Creek Wetland which is I understand part of the Central Coast Drinking water Catchment.

The airport site is surrounded by residential areas and adjacent to the new Warnervale Town Centre

.As a resident of Bruce crescent my concerns are noise, Jet aircraft flying above and adjacent of my home ,and as we are on tank water I believe Jet planes could pollute our drinking water.

And as many elderly home owners don't have much superannuation ,to lose .value on their home would be a smack in the face

And in the words of Joni Mitchel ,1970's folk singer,The song, Big Yellow Taxi , They paved paradise and put up a parking lot.

Thank you for your time
