Online Submission

Mar 23 (22 days ago)

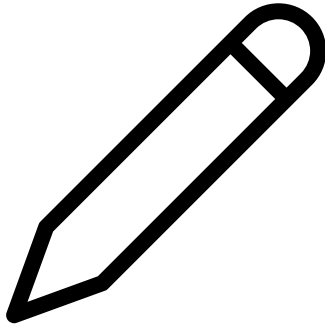

m To:

I write this submission because climate change is already changing our weather and all our lives. We now need the Government to plan for sea-level rise, storm surges, changed rainfall patterns and provide for distributed energy, water and food systems so that our cities, suburbs and the bush are resilient to dramatic change.

Therefore we need a moratorium on all new coal mines and a transition plan for the Hunter Valley, so that we can attempt to rehabilitate the damage the existing mines have done and provide for sustainable jobs and industry instead.

The Hunter Valley needs permanent and absolute protection for the wine industry, thoroughbred industry, water resources, good farmland and villages from destructive and outdated coal mines.

So please scrap plans for a fourth coal terminal in Newcastle, and protect the world-renowned wetlands of Ash Island by adding them to the Hunter Wetlands National Park.
