Online Submission

Mar 21 (24 days ago)

d To:

I'd like to make a submission in line with the clearly stated opinion of the Hunter Community Environment Centre. See below:

- Climate change is already changing our weather and all our lives. We want the Government to plan for sea-level rise, storm surges, changed rainfall patterns and provide for distributed energy, water and food systems so that our cities, suburbs and the bush are resilient to dramatic change.
- The coal industry is in structural decline. We want a moratorium on all new coal mines and a plan for a just transition for the Hunter Valley so that we can rehabilitate the damage the mines have done, and provide for sustainable jobs and industry.
- The Valley needs permanent and absolute protection from coal mines, for the wine industry, thoroughbred industry, water resources, good farmland and villages.
- Scrap plans for a fourth coal terminal in Newcastle and protect the world-renowned wetlands of Ash Island by adding them to the Hunter Wetlands National Park.
