

Recipient: Department of Planning and Environment

Letter: Greetings,

Educational infrastructure as part of SOP Revised 2030 Plan

Comments

Name	Location	Date	Comment
Glen Lebeau	Australia	2016-10-28	Primary and secondary are a must in the fast growing area!!!
Anita Sumarto	Australia	2016-10-28	Anita Sumarto
Bas Farag	Nwington, Australia	2016-10-28	It's simply nescessary.
Grace Li	Australia	2016-10-28	The most pressing need in our local area.
Monica Davila	Australia	2016-10-29	In much need for both primary and secondary educational facilities within this area.
Muriam MAYAT	Australia	2016-10-29	Want no development until a another primary and high school is built. Newington and Concord high are both extremely full. Newington has very little school playground due to added demountables. No new schools no more development.
Kevin Lee	Australia	2016-10-29	Over population without the right infrastructure will result in loss in focus. Schools are needed to keep the levels optimum, surrounding areas won't be able to take all capacity with an estimated extra 30,000 people
Susan Hendra	Australia	2016-10-29	Newington Public School is bursting its seam! Wentworth Point school should have been a priority
Tracey Dobbs	Australia	2016-10-29	Existing schools are already suffering with current occupancy, the buses to the only (already at capacity) high school are overcrowded and unsafe. The current infrastructure is already less than what is needed, - 30,000 more people and no definitive plans for schools - this thinking is flawed!
Louise Bartlett	Australia	2016-10-29	With ao many people moving into SOP all infrastructure needs to meet demand. The local schools are already over capacity thousands more people mean new schools need to be planned for now.
irena atic	Australia	2016-10-29	There is 120 kids starting kindy next year at Newington public, including my own child. The infrastructure cannot support the growing population. The choice of secondary schools is even more appalling.
Alison Cocks	Australia	2016-10-29	I am concerned for the safety,health and wellbeing of children in overcrowded schools in my local area.
Shanty Kosasih	Australia	2016-10-29	New schools definitely need to be in the planning agenda and action urgently. Our local school is growing too fast and overcrowded. Lack of playground for the growing number is a major concern for safety.
Lisa Wallis	Australia	2016-10-29	I'm signing because the primary schools are increasingly overcrowded and the provision of public high school places is entirely inadequate for the current primary school population, let alone the planned population growth.

leeanne cox	Australia	2016-10-29	My daughter attends Newington Primary and this school is busting at the seams with demountable class rooms multiplying every year. The school already has insufficient space for the children to learn and play in a safe environment. My son attends Concord High and I am told they too are busting at the seams, with the possibility of not being able to accommodate future students from post code 2127. The school boundaries do not include an alternative unless you want to apply to an out of area school suffering lower enrollment preference to their own local students. Post code 2127 do not have a long term sustainable option for the growing infrastructure in the area especially with the huge unit development in neighbouring suburbs. The school, teachers, school supplies, services and realestate are already under enormous strain. Our local schools just can't keep going like this, it is not acceptable to ignore the issues we the school parents and community have raised for over 5 years.
Andrew Nagy	Australia	2016-10-29	I live next door to Newington public school and have seen the demountables multiply at the expense of the playing field. Sad lack of foresight. The area needs a plan!
Christ D'Haeveloose	Australia	2016-10-29	<p>2 of my daughters are attending Newington primary school and my eldest is going to concord public school</p> <p>Newington public school students are continuing to increase and are already overcrowded, yet there is still no additional school in the area despite the ongoing massive increase in population in Wentworth point and Olympic park</p> <p>Concord high school is still holding up but for how long. And the public and school buses are so full they regularly need to leave people behind</p> <p>This seems to be a government mostly interested in big announcements, forgetting they are there to provide a service to the communities.</p> <p>It is shocking to read still no action has been taken</p>
irena atic	Australia	2016-10-29	My daughter will start kindergarten in 2017 and there will be 120 kids starting with her at Newington public which is overflowing. Our area needs more primary and secondary schools to cater for the rapidly growing population, not "maybe by 2030" but now.
Krista Navarro	Australia	2016-10-30	Everyone should have access to good quality public education. There is a huge need for this in the Wentworth Point area with its growing population.
Kathy Blanter	Australia	2016-10-30	I live in Wentworth Point. A high school won't benefit my children who have attended and will attend high school out of area but a high is badly needed for the rapidly growing population.
Oliver O'Reilly	Hazelbrook, Australia	2016-10-30	I have children who currently have no public transport available to commute from Wentworth Point to Newington PS. When high school comes in a couple of years I don't anticipate the current overcrowding at Concord HS to improve or even maintain current levels of enrolment stress.
Natasha Cassidy	Australia	2016-10-30	With the amount of residential development occurring in the area there will be a desperate need for high school education. Currently looking at options outside the area as certainly don't want my child taught in an overcrowded over stretched environment

Barbara Leiton	Australia	2016-10-30	Public Education is an important investment for our children and should not be taken for granted. Good decisions now will have a positive impact for generations. The overcrowding of our public schools with limited funding is certainly is not a good decision.
Brian Tiet	Australia	2016-10-30	I have seen the increase in volume of children in the area. I am concern of increasing needs of our children which is not met and disappointed in the poor judgement in town planning. I sincerely hope this petition would highlight the need for education in both junior and senior education in the area.
SAJID SIDDIQUE	NEWINGTON, Australia	2016-10-30	I have 3 kids need to go to high school in near future.
Sharanjit Nagra	Australia	2016-10-30	I am concerned about developments taking place without adequate planning for supporting social infrastructure. Developer contributions should be levied and used to fund both social and economic infrastructure.
mohamed eid	Australia	2016-10-30	I have a child in year 7 at Concord and a child in year 2 in Newington A new high school cannot come soon enough
Andrew Atic	Australia	2016-10-30	You can build a hollow future based on short term property prices or you can build a long term future with good schools and communities.
Kathy Baxter	Australia	2016-11-03	My daughter will be starting school in 2018 and I want her to have a small school experience like I had as a child. From 200 to 800+ children is ridiculous with so many demountables and so little outdoor space. If you can't build the extra school/schools needed don't build the apartments and don't make Newington families suffer because of lack of planning.
Bob Nagra	Australia	2016-11-03	Newington Public School is full and with 20000 extra residents in Sydney Olympic Park where will their children go?
Nlrman Mahato	Sydney, Australia	2016-11-03	The existing school infrastructure just cannot cope with so many apartments being built around SOP, Newington and Wentworth Point
Angela Kouklidis	Australia	2016-11-03	Having daughters as students at the wonderful Newington Public School and the growth of student over the past 7years, with most children then moving into High school at Concord HS. The population of the area has significantly doubled year on year and sadly no 2nd primary school or high school has been constructed for the area. Really need to consider and get it happening !!!!! ACT NOW
Gina Tomazos	Australia	2016-11-03	Gina
Dalida Elali	Australia	2016-11-06	The authorized bodies who approved this plan (without a plan) should come under severe scrutiny. Consideration to education, health and transport is paramount before stamping your approval - Hurry up and fix this mess
