

27.2.17

To Ingleside Planning,

Please reconsider to exclude the following from development:

- coastal upper land swamp
- bushland in the vicinity of Manor, King, Waratah and Powderworks Road.

By not developing these areas the east to west wildlife corridor between Ingleside Chase Reserve and Garingal National Park will remain open for ~~the~~ endangered and protected wildlife to use and prevent inbreeding and loss of unique species.

The major selling point of Ingleside is the abundance of bush land creating the illusion of rural land in a very urban landscape. Please do not take this away from us.

Yours sincerely,

Holly Smith
