My specific submission regards NBN towers particularly the tower proposed for [REDACTED] I refer to schedule 19 item 8 page 48. (a1) be located within 100 metres of a dwelling. I am pleased with this proposed amendment but I don't believe it goes far enough, I strongly support increasing this distance to 500 metres to a residential dwelling including outbuildings. This is based on visual impairment. The complete lack of regard for neighbours interests who have no input into design process and total disregard for devalue of neighbouring properties with no remuneration whatsoever. If existing telecommunications towers are already on government land then this land should be used for NBN towers without further angst among neighboring residential homes.
