To Whom It May Concern

Planning for the Future of Retail Discussion Paper

CarbonetiX is a national, multi-disciplinary energy and resource optimisation company. We specialise in design, delivery, implementation and monitoring of cost-effective energy and water efficiency measures across a broad range of commercial, industrial and community facilities throughout Australia. We provide beginning to end practical solutions, tailored to reduce your sites energy and water use, with significant risk mitigation, cost savings and strong return on your investment.

We have been a member of the Large Format Retail Association for the past 4 years and we endorse the Large Format Retail Association's submission to the Discussion Paper on Planning for the Future of Retail.

While we believe that the proposed definition of 'Specialised Retail Premises' will enable members of the Large Retail Association to plan future development in NSW this will be further assisted by simplifying the Business Zones and enabling Large Format Retailing to occur on a wider range of land zones.

Yours sincerely

Randall Vavra
General Manager
