

To NSW planning and Blacktown city council

I am writing to you about the changes in west parade the changers to sporting fields that's currently zone ru4 properties. As attached a new plan to show how we can keep our properties and the field can be replaced. We are 200 meter from Riverstone railway station and same to the shopping centre. So I would like the property to remain as ru4 not sporting field. I have lived in the 1 in 100 year flood zone for 53 years .I am aware we cannot development the property. So the new attacked plans can save the council and nsw planning from spending up 15 million dollars .we can now work together by introducing a new draft to save the greenspace as playing field as needed. So the draft copy plan will show how changes can be made. And why is it's now called west Schofields and not Riverstone when it is known as Riverstone.
