

I, Jessi Denise Hunt of 21 Carlton Street Riverstone, lot 3/345287, a resident here for my whole life, 22 years. I am opposing the rezoning of Carlton Street and West Pde from the current RU4 to sporting fields. There has been a draft alternative supplied by my family and neighbours which I believe would be a less costly and better solution for the area.

There are properties at either end of the street that have been left out of the proposed compulsory acquisition, even though they are the same zoning as others in the street that are to be resumed. I do not think this makes sense.

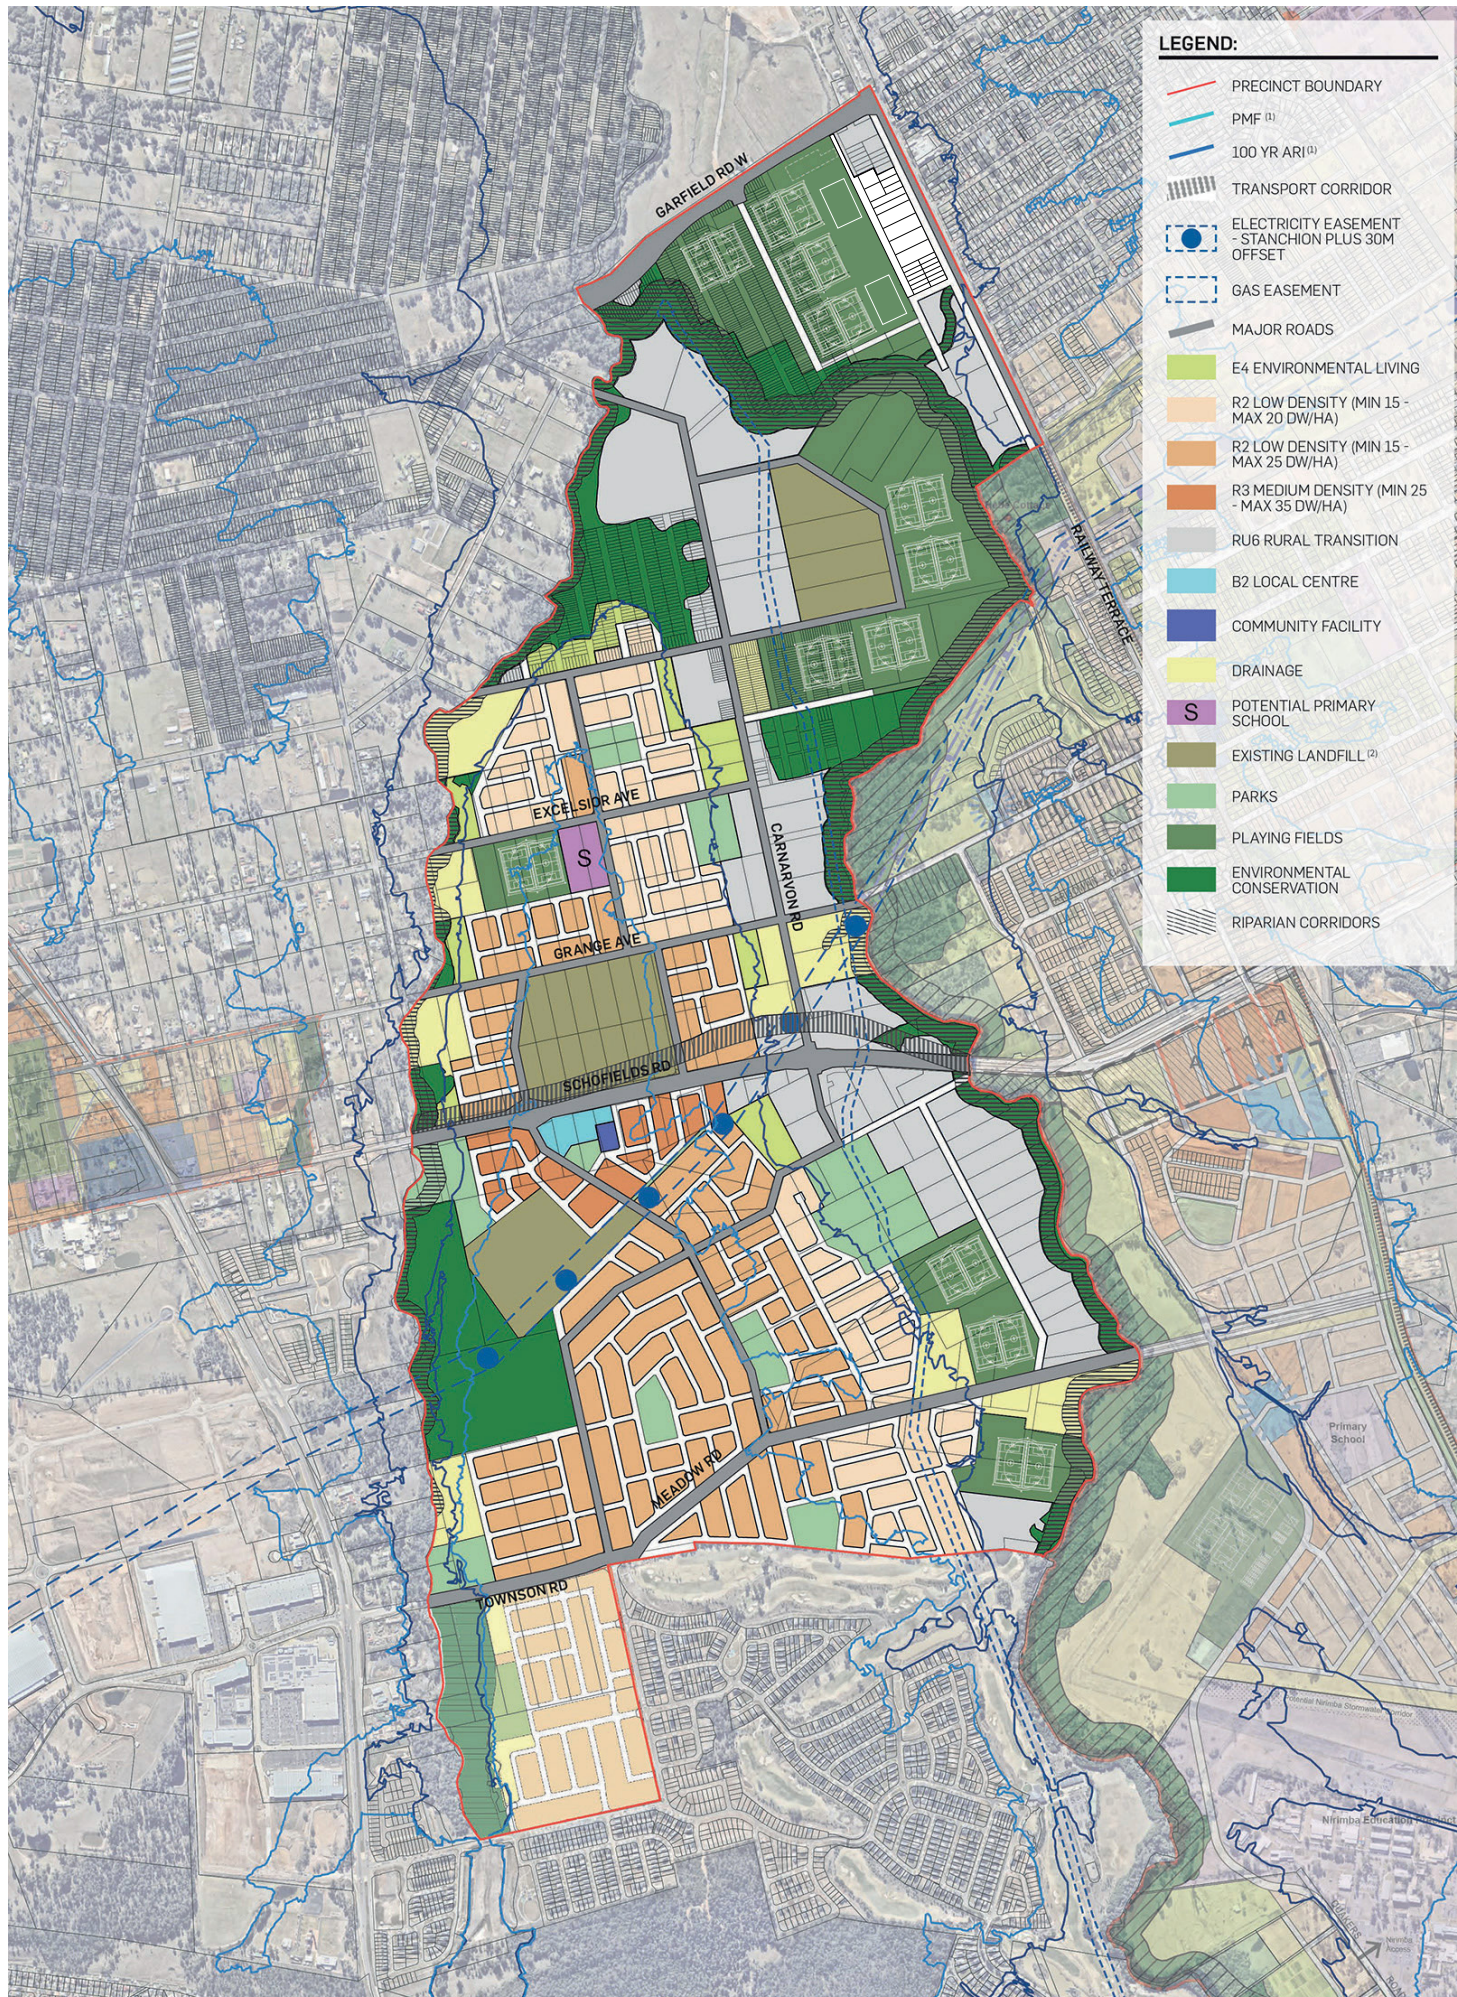

At this point in time I am a part time worker and student. I live at home as I cannot afford to rent property, or move out for some time. Our home is located very close to Riverstone train station, which I use for transport as I do not drive.

Thank you for your time and consideration in this matter.

Regards,

Jessi Hunt

## WEST SCHOFIELDS DRAFT ILP

(1) NOTE: Where development lies between the 1:100 chance per year and the probable maximum flood, additional controls will be applied to subdivision and building design to increase flood resilience.

(2) NOTE: The surrounding landuses to the Grange Ave and CSR landfill sites are subject to change depending on final results from field investigations.
