Riverstone, NSW, 2765

To whom it may concern,

I am writing to you about my disapproval of the possible rezoning of West Parade & Carlton Street.

My main concerns with this are:

- You are happy for the Hotel and the only heritage listed property to remain as they are, even though they are just as susceptible to flooding as the other properties on the street.
- The division of the street seems unnecessary considering that it will be substituted for what appears to be half a football field.
- The flood situation didn't stop me from buying here and nor does it worry me now.
- I am all for development but not when it is unnecessary and affects peoples livelihood, especially in such a community driven town.

Thank You,
Milan Gherm
