Rhonda & Dwayne and Nicole Sarina.

34 West Pde

Riverstone, NSW, 2765

To whom it may concern,

I am writing about the suggestion of re-zoning West Parade and Carlton Street in Riverstone and would like to state my disapproval and urge for you to consider the amended plan put together by the residents of these streets.

This current property has been my home for 33 years and despite being aware that it was flood zone this does not bother us now and nor did it bother my family and I in 1985. I understand that sentimentality may be a moot point in this argument however I raised four children with my departed husband as well as grandchildren in this home (three of which live with me).

My son Dwayne has a registered business and operates out of our residence for financial income for his wife and three children, this proposed rezoning would cause copious amounts of financial and emotional stress on me but more importantly my children and grandchildren. I am all for growth in the community however I hope it is not at the expense of my children and grandchildren, hopefully this letter gets you well and thank you for your time.

Warmest of regards,

Rhonda Sarina.
