Scenarios
Share

Scenario 1 Scenario 2

Scenario 1 is a tall residential tower, the size of which could fund the creation of a medium-size park, including sports facilities for local residents, workers and schools. The ground floor would be activated by a café that would overlook the park.

Developer
This Proposed mixed-use building would incorporate much open space as there is no park in proximity and an existing worker population would utilise this proposed area for off-peak hours.

Lucy
I love this scheme with the new open space! I think it will be great for people who live in this new tower
