

Feedback collected on David Street, Turner proposed redevelopment

Comment	Response
YOURSAY	
I think concept design 1 has better street appeal and better functionality for future residents. Glad to see single level – good for older ppl	Noted. The two designs were presented to the community to highlight the benefits and challenges of locating the driveway in different positions on the block. The next step will be to test the designs with relevant authorities as part of the pre Development Application (DA) process
EMAILS	
Request to stay informed on this development	Noted
Request for information on potential reuse/recycle of materials when a house is demolished	Information being sought and a response will be provided to community member directly via email
DROP-IN SESSION	
Support for public housing being maintained in the suburb	Noted
Support for more Adaptable housing in the area	Noted
Importance of tree and character retention	Noted
Support for the character of the neighbourhood being maintained through design	Noted
