

QUEEN VICTORIA MARKET PEOPLE'S PANEL

QVM LOADING AND UNLOADING - CURRENT STATE OCTOBER 2018

LOADING

Currently, Queen Street acts as the main logistics spine for the fruit and vegetable businesses, butchers and a portion of the fishmongers. There are limited designated zones for loading and unloading around the Meat, Fish and Dairy Halls, which means informal locations such as the Elizabeth Street footpath are commonly used.

Franklin and Peel streets are also used while General Merchandise in the upper market primarily load from the existing car park, with the silver storage boxes, or canyons situated within the market footprint.

Future requirements for loading and unloading requirements are estimated to be 1,000m² and involve complete segregation from public customer areas of loading and unloading and efficient and effective loading facilities to reduce the set up times for trader.

LWBV

Type: Long Wheel Base Vehicle
Length: 6 metres

ELWBV

Type: Extra Long Wheel Base Vehicle
Length: 6.7 metres

SRV

Type: Small Rigid Vehicle
Length: 6.4 metres

HRV

Type: Medium Rigid Vehicle
Length: 8.8 metres

HRV

Type: Heavy Rigid Vehicle
Length: 12.5 - 19 metres

1. VICTORIA STREET

Peak: 6:00 - 06:59
Deliveries (peak): 2
Most Used Vehicle: SRV/HRV
Average Time Spent: 1hr 21mins
