

QUEEN VICTORIA MARKET PEOPLE'S PANEL

GVM CARPARKING - CURRENT STATE OCTOBER 2018

CAR PARK NUMBERS

1,022

car parks within the market precinct

720

car spaces in the Queen Victoria Market at-grade car park

50

of which are used for other purposes and unavailable to customers/traders parking

91

on street car spaces: Queen Street (between Victoria and Franklin streets)

31

on street car spaces: Therry Street (between Queen and Elizabeth streets)

180

on-street car spaces: Franklin Street

CAR PARKING THROUGH RENEWAL

The QVMPP Masterplan, endorsed by Council in 2015, includes:

A commitment by Council to replace the 720 car spaces in the Queen Victoria Market at-grade car park elsewhere within the market precinct.

Transform the existing car park into new public open space, once the 720 replacement spaces are constructed and operational.

500 car parks will be located in the Munro site, at the corner of Queen and Therry Streets. People's Panel to decide number and location of additional car parks within the precinct.

LOSS OF CAR PARKING THROUGH RENEWAL

Approximately 302 on-street car parks will be lost on Queen, Therry and Franklin streets as part of renewal. Accessible car parks will be retained close by.

CAR PARK USAGE

Peak occupancy rate for at-grade car park is 90% between 11am - 1pm, market days.

Usage sits between 35% at 7am/3.30pm to 80% at 10am/2pm, outside of this peak time.

Peak occupancy rate for on-street parking within the market precinct is 96% at around midday.

GETTING TO THE MARKET

39%

by public transport

38%

by car

33%

by foot
