

Plant Fruit Trees near Community Gardens

CE
048

Idea Summary

Planting non-native, disease resistant, cold hardy fruit trees within or next to all of London's Community Gardens. Trees would be planted on the north, east and/or west side, so as not to shade out garden plots.

Cost Summary

Tree Guards + Tree Stakes + 60
Fruit Trees + Wood
Chips= **\$4,000**

Community Impact

Encourages initiative, leadership, collaboration, continued learning and sharing of skill sets. It also helps the environment.
