

Notice of Commencement of Terms of Reference Environmental Assessment for Proposed W12A Landfill Expansion City of London

The City of London (the City) has initiated a study under the Environmental Assessment (EA) Act for a proposed landfill expansion. The City's existing landfill (W12A) is expected to reach capacity in 2025. The service area for landfill expansion is proposed to be expanded to a regional area, which includes: City of London, County of Huron, County of Perth, County of Oxford, County of Elgin, County of Lambton, and County of Middlesex.

The Process

This study will be carried out in accordance with the requirements of the EA Act. The first step in the process is the preparation of a terms of reference. The terms of reference will set out the proponent's framework and work plan for addressing the EA Act requirements when preparing the EA, including such things as the alternatives that will be considered and the public consultation activities that will be carried out. If approved by the Ministry, the terms of reference will provide the framework and requirements for the preparation of the EA.

Consultation

Members of the public, agencies, Aboriginal communities and other interested persons are encouraged to actively participate in the planning process by attending consultation opportunities or contacting staff directly with comments or questions. Consultation opportunities are planned throughout the planning process and will be advertised in *The Londoner* and through the City's website at getinvolved.london.ca/WhyWasteDisposal.

The City is also creating a Waste Management Community Liaison Committee for the purpose of this EA.

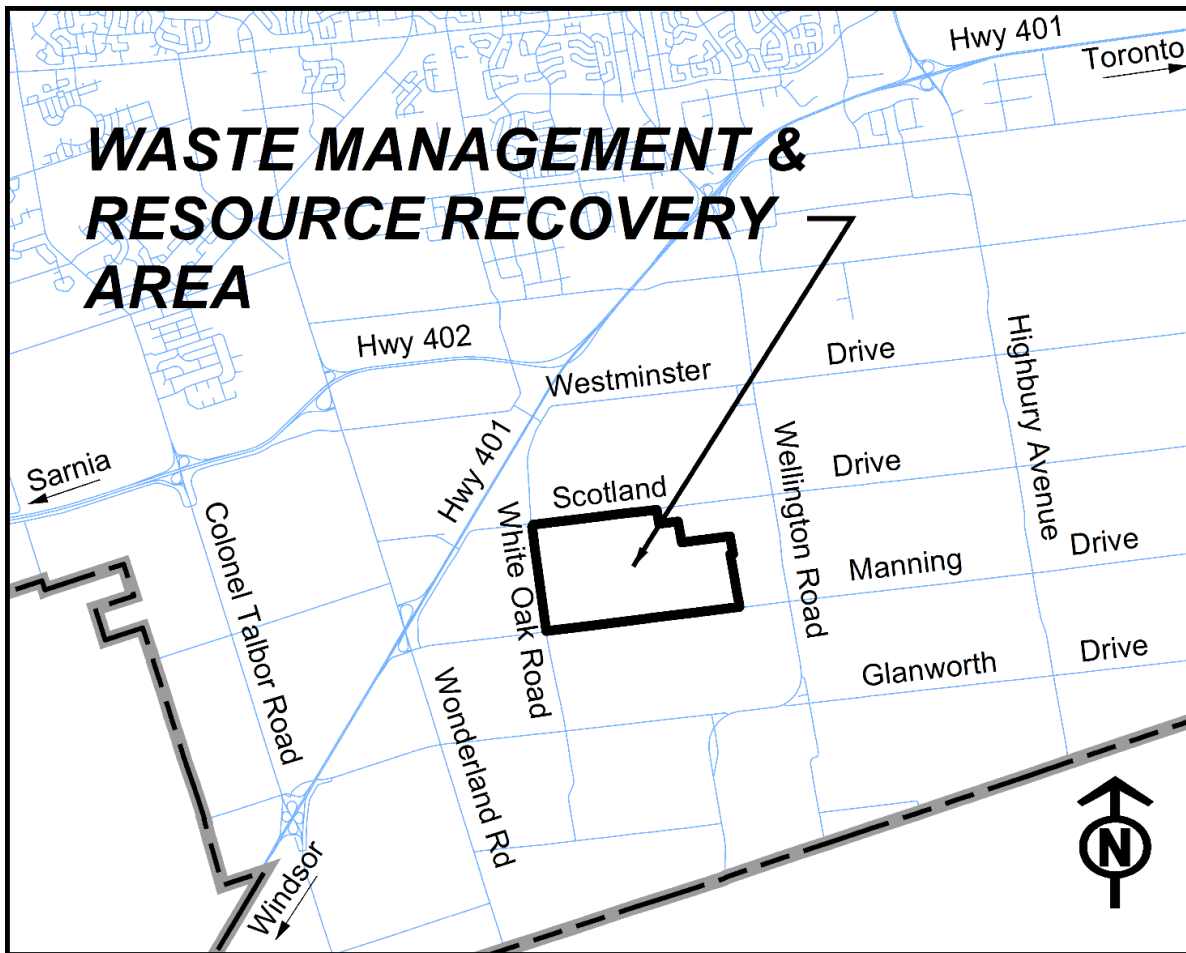

If you are interested in participating in this committee or wish to sign-up to be on a project contact list, please contact City staff as noted below or visit the City's website at getinvolved.london.ca/WhyWasteDisposal. Comments may also be submitted by mail, email or fax, to the following project contacts:
