

Community Engagement Program

Stakeholders

- Stakeholders (including the general public, businesses, Indigenous Communities, the Government Review Team, and City of London Advisory Committees) **will be informed and asked for input throughout the ToR and EA phases.**
- The **W12A Landfill Public Liaison Committee (PLC)** serves as a focal point for the distribution, review and exchange of information and monitoring results relevant to the operation of the City's W12A Landfill. The majority of its members live near the landfill and meet bi-monthly.
- The newly established **Waste Management Community Liaison Committee (CLC)** will ensure that the interests of multiple stakeholders are equally and adequately represented throughout the EA Process, and be comprised of key individuals representing specific stakeholder groups.

Community Engagement Activities

(during "Develop" step of the Terms of Reference phase)
