

M41 Merri Creek to MCG Water Main Renewal Project

Commencement of works - Albert Street

The M41 water main supplies drinking water to over 350,000 residents and businesses in Melbourne's inner suburbs. It runs from Merri Creek, Northcote to Wellington Parade, East Melbourne. The existing water main is almost 100 years old and deteriorating and needs to be replaced to prevent leaks which have created significant community disturbance during emergency repair works.

Construction of the M41 Merri Creek to MCG Water Main Renewal Project is expected to commence on **Albert Street**, East Melbourne from **Wednesday 13 March 2019**.

The westbound lanes of **Albert Street** will be closed between **Clarendon Street** and **Eades Street** from **Wednesday 13 March** until **Friday 5 April 2019**. The northbound lanes of **Clarendon Street** between **Grey Street** and **Albert Street** will also be closed during this period. Please follow the traffic management signage in place.

Cyclists will be asked to dismount in accordance with local laws and detour via the Fitzroy Gardens. Please note, penalties may apply for non-compliance.

Installation of the new water main

The project will be excavating a trench approximately 3m deep to install the new 1.2m diameter steel pipe. These pipes range in lengths from 6.5m to 13.5m.

You will notice a crew of workers, as well as large excavators, compaction rollers, trucks and light construction vehicles within the work zone.

Temporary changes to on-street parking

There will be no on-street parking and no vehicle access available within the work zone while the works are undertaken.

Please keep in mind that because of these temporary road closures, there will be limited on-street parking available in neighbouring streets for both residents and businesses. The project will reopen the road as soon as it is safe to do so. Please follow the signage and direction of our traffic controllers and allow extra travel time. Pedestrian detours will also be in place during these works.

What can you expect

- Site establishment with temporary fencing erected to delineate the work zone
- Temporary changes to on-street parking
- Temporary changes to traffic conditions and changes to the speed limits near the work area
- Noise from various construction plant, vehicles and activities such as rock breaking
- Dust and vibration
- Increased construction vehicle movement in the local area

Construction hours

These works will be performed during the day between **7am and 6pm Monday to Friday** and **Saturday between 7am and 1pm**.
