2b. Please outline your reasoning for this opinion (optional)

3a. Which specific actions do you think will be easiest or most challenging to deliver?

3b. Why do you think this?

4. What do you/ your organisation think is the greatest opportunity the Yarra Strategic Plan presents? Please rank the following statements in order of importance from 1 -4

6b. If you answered Yes, where are these key priority areas of land and why do you think they should be added?

Part 2: Land Use framework

7. The Land Use framework aims to put the Yarra River at the heart of future planning and development decisions. What is your / your organisation's view about the Land Use framework?

9b. Please outline your reasoning for this opinion (optional)

10a. Do you believe that the 13 significant places identified for the river corridor reflect the

most regionally significant locations?

10b. Why do you think this?

11. Do you agree with the opportunities identified for the significant places that you connect with?

12. Do you have any further ideas about how the Plan may provide for the cultural/spiritual/environmental care and protection of the Yarra River over the next ten years, whilst also working toward achieving the 50 Year Community Vision?

13. Finally, what are your overarching thoughts and feelings about the Yarra Strategic Plan?

This 'Strategic Plan' appears more like a position paper related to the issues and hinting at what might be done. The broad goals and range of stakeholders are fine, but 'plan' needs to be clear about the process for deciding specific objectives, and implementing them. Goals, objectives, targets etc are useful to provide direction, but inevitably need to be refined as more thinking is given to the issues and players, time passes, and 'change factors' (like climate change and COVID-19) get in the way of the (thought to be) perfect ideas. Get a clear process sorted out, be serious about the resources that need to be allocated, then let the process work on achieving the detail.
