

M41 Merri Creek to MCG Water Main Renewal Project

Mark, Apperley and Park Street interruption

The M41 water main supplies drinking water to over 350,000 residents and businesses in Melbourne's inner suburbs. It runs from Merri Creek, Northcote to Wellington Parade, East Melbourne. The existing 100 years old water main is deteriorating and needs to be replaced to prevent leaks which have created significant community disturbance during emergency repair works.

Decommissioning works

From Monday **26 August 2019** crews will commence setting up in numerous locations along Mark Street, Apperley Street and Park Street to undertake grouting and decommissioning works on the redundant pipe.

In most sections the road will only be partially closed allowing traffic to continue to flow past our small fenced areas. We will be pouring grout into the old Melbourne water pipe as part of decommissioning works

- Pedestrian access will be maintained at all times.
- There will be no interruption to the water supply for residents and businesses.
- Access to parking will be minimally affected.

These works will commence on **Monday 26 August** and finish **Friday 6 September 2019**.

What can you expect to see

- Increase in truck movements
- Small fenced areas to enable crews to work safely. Lane closures will be required when setting up the fenced areas.
- Some noise from the movement of trucks, machinery, rock breaking, saw cutting, generators and reversing beepers
- Dust and vibration
- Changes to the speed limits near work areas
- Changes to parking and traffic conditions

Temporary changes to on-street parking and traffic

Residents are requested to seek alternative parking before construction commences.

Traffic management and detours will be in place to ensure motorists, cyclists and pedestrians can safely navigate around our worksite. Pedestrian access will be maintained on footpaths. Emergency services will be able to access Mark, Apperley and Parks Streets at all times, including after hours, by whatever means are necessary.

Some vehicles will need to be clear of the street prior to the works commencing to allow traffic to continue to flow. Areas where cars will need to be removed will be shown on the street days prior to works commencing in that section of the street.

Our construction team will assist residents with their rubbish bins on collection days.

Location for works

The areas marked in red indicate where our crews will be setting up and working. We ask residents to ensure that their vehicles are moved from these locations by 7am on Monday 26 August 2019.

Work hours

Work hours will be **7am to 6pm** Monday to Friday and **7am to 1pm** on Saturdays.

Project communication with residents

For further information regarding the project or to provide feedback please see contact details below.

Keep up to date with what's happening
