## **New Form submission on Help us shape the final 10-year strategic plan for the Yarra River**

Hi [YarraStrategicPlan@melbournewater.com.au](mailto:YarraStrategicPlan@melbournewater.com.au)

There has been a submission on [Help us shape the final 10-year strategic plan for the Yarra River](#) through Engage Victoria

A copy of the submission is provided as below:

### **Part 1: Working toward the Community Vision**

**1a. Do the four, 10-Year Performance Objectives adequately reflect the 50 Year Community Vision?**

**1b. Please outline your reasoning for this opinion (optional)**

**2a. Are the actions identified to deliver the 10-Year Performance Objectives achievable, realistic and measurable?**

**2b. Please outline your reasoning for this opinion (optional)**

**3a. Which specific actions do you think will be easiest or most challenging to deliver?**

**3b. Why do you think this?**

**4. What do you/ your organisation think is the greatest opportunity the Yarra Strategic Plan presents? Please rank the following statements in order of importance from 1 -4**

Improving water quality of the Yarra River and protecting land, floodplains and billabongs - 4

Acknowledging, protecting and commemorating the rich heritage of the Birrarung - 3

Improving the river's parklands to support community wellbeing - 2

Protecting the significance of the Yarra River's landscapes and views - 4

**5. Do you feel the draft Yarra Strategic Plan has put appropriate actions in place to ensure delivery on the aspirations of Traditional Owners?**

Unsure

**6a. Are there key priority areas of land you think should be added to the parkland network along the Yarra River?**

Yes

**6b. If you answered Yes, where are these key priority areas of land and why do you think they should be added?**

The entire upper Yarra catchment might be better protected if it was added to the parkland network. That's where the clean water comes from, and catchments should not be logged or otherwise degraded.

**Part 2: Land Use framework**

**7. The Land Use framework aims to put the Yarra River at the heart of future planning and development decisions. What is your / your organisation's view about the Land Use framework?**

**8a. Do you believe the Land Use directions will support the 50 Year Community**

**Vision?**

Unsure

**8b. Why do you think this?**

Less rain and far too many people demanding water will put much more stress on the river system. Climate change is likely to increase flood intensity and cause more damage. Sea level rise will cause the salinity gradient to alter because the mouth will be higher.

**9a. Do you agree with the Land Use directions for the Yarra River?**

Unsure

**9b. Please outline your reasoning for this opinion (optional)**

It can be undone by a greedy, corrupt government, so maybe not having it in government hands would limit "sovereign risk".

**10a. Do you believe that the 13 significant places identified for the river corridor reflect the most regionally significant locations?**

**10b. Why do you think this?**

**11. Do you agree with the opportunities identified for the significant places that you connect with?**

**12. Do you have any further ideas about how the Plan may provide for the cultural/spiritual/environmental care and protection of the Yarra River over the next ten years, whilst also working toward achieving the 50 Year Community Vision?**

**13. Finally, what are your overarching thoughts and feelings about the Yarra Strategic Plan?**

Unless the state government aims for zero population growth, the population pressure will push market forces to undo environmental protection for public reserves. Witness the organised crime figures involved in cribbing access to our Green Wedges, and the salivating property developers baying for the release of the green wedges fro development.
