

M41 Merri Creek to MCG Water Main Renewal Project

Construction update May 2018

Construction of the M41 Merri Creek to MCG Water Main Renewal Project has commenced on George Street from the intersection of Condell Street and is now moving progressively towards Webb Street, Fitzroy.

Project Site Location

For your safety, our construction corridor will be fenced off for the entire road width with the footpath open at all times. The road will be closed to vehicles on George Street from Condell Street through to Webb Street. Entry and exit to the construction corridor will be from Condell Street to Webb Street intersections. These entry and exit locations will be managed by traffic controllers.

This update specifies that the Charles Street and George Street intersection will now be closed to vehicles for a period of time whilst works are undertaken from **Tuesday 29 May 2018**. The site footprint will extend on George Street through to Little Charles Street, Fitzroy.

Shortly after, the works will then again extend from Condell Street to Webb Street for the duration of June 2018 as the pipe laying works progress south.

Installation of the new water main

The project will be excavating to expose the existing water main whereby they remove the existing pipe and relay a new pipe in the same location. This is done through the use of a large excavator. The trench is approximately 3m deep and 20m long to install the new 1.2m diameter steel pipe. These pipes range in lengths from 6.5m to 13.5m.

You will notice a crew of up to ten workers, as well as large excavators, compaction rollers, trucks and light construction vehicles within the work zone.

Temporary changes to on-street parking

There will be no on-street parking and no vehicle access available within the work zone on George Street from Condell to Webb Streets while the works are undertaken.

The project will also require adequate space outside the work zone for trucks to reverse safely into the work zone at Condell Street and Webb Street. Parking bays will be occupied by local traffic control in the required areas during project working hours to ensure this is done carefully. Please also keep in mind that as a result of these temporary road closures, there will be limited parking available in neighbouring streets for both local residents and businesses

These temporary parking changes may be in place for a period of up to 5 weeks, weather permitting. We will reopen up the road as soon as it is safe to do so.

Please ensure all vehicles are moved from the work area on George Street by the following dates:

- **Charles Street and Little Charles Street by 7am on Tuesday 29 May 2018**
- **Little Charles Street to Webb Street by 7am on Thursday 7 June 2018**

Traffic detours

There will be local traffic management and detours in place during working hours. Our traffic controllers will be on duty at each work location to ensure traffic and pedestrians can navigate around our worksite safely during working hours.

Please follow the signage and direction of our traffic controllers and allow extra travel time. We encourage you to familiarise yourself with these temporary traffic changes as there are some temporary traffic directional changes whilst the works are undertaken.

Reinstatement

Once we have completed laying pipe and upgrading the water main the project will temporarily reinstate the trench with asphalt so the road can open for traffic. The project will ultimately re-asphalt roads kerb to kerb at a later stage.

What can you expect

- Site establishment with temporary fencing erected to delineate the work zone
- Tree trimming on George Street
- Temporary changes to parking and traffic conditions in the area from 28 May 2018
- Temporary lane and road closures and changes to the speed limits near work areas
- Noise from various construction plant, vehicle and activities such as rock breaking
- Dust and vibration
- Increased construction vehicle movement in local area

Construction hours

These works will be performed during the day between **7am to 6pm Monday to Friday** and **Saturday between 7am to 1pm**.

Keep up to date with what's happening
