10a. Do you believe that the 13 significant places identified for the river corridor reflect the most regionally significant locations?

11. Do you agree with the opportunities identified for the significant places that you connect with?

12. Do you have any further ideas about how the Plan may provide for the cultural/spiritual/environmental care and protection of the Yarra River over the next ten years, whilst also working toward achieving the 50 Year Community Vision?

13. Finally, what are your overarching thoughts and feelings about the Yarra Strategic Plan?

I didn't see any mention of restoring the natural dam/water fall once present near Queen's bridge. Surely with all the talk about Colonial settlement (beyond the scope of a river strategy, but thanks for the reminder) the notion of restoring the division of fresh-salt water at this point would be a consideration. Consider removing all references to climate change given we've just had a lot of summer rains and the notion may no longer be in vogue by the time this goes to print. Also would be great to stop the destruction of rail corridors by converting train lines into the most expensive bike tracks in the world. At \$60 million per kilometre for the construction of a railway line this translates to a very costly bike track.
