New Form submission on Help us shape the final 10-year strategic plan for the Yarra River

Hi YarraStrategicPlan@melbournewater.com.au

There has been a submission on [Help us shape the final 10-year strategic plan for the Yarra River](#) through Engage Victoria

A copy of the submission is provided as below:

Part 1: Working toward the Community Vision

1a. Do the four, 10-Year Performance Objectives adequately reflect the 50 Year Community Vision?

Yes

1b. Please outline your reasoning for this opinion (optional)

2a. Are the actions identified to deliver the 10-Year Performance Objectives achievable, realistic and measurable?

Somewhat

2b. Please outline your reasoning for this opinion (optional)

3a. Which specific actions do you think will be easiest or most challenging to deliver?

Protecting the Yarra River biodiversity corridor from ongoing developments in the urban density area and developing outer suburbs, as there is a lot of new commercial residences appearing which could have an impact on the wellbeing of waterways.

3b. Why do you think this?

People are moving further from the city to find more affordable places to live, creating an urban sprawl effect, there is an increasing pressure on areas of land to be turned into development for estates and residence. Pollution, erosion, removal of important vegetation and heavy usage of land are some of the causes.

4. What do you/ your organisation think is the greatest opportunity the Yarra Strategic Plan presents? Please rank the following statements in order of importance from 1 -4

Improving water quality of the Yarra River and protecting land, floodplains and billabongs - 4

Acknowledging, protecting and commemorating the rich heritage of the Birrarung - 4

Improving the river's parklands to support community wellbeing - 4

Protecting the significance of the Yarra River's landscapes and views - 4

5. Do you feel the draft Yarra Strategic Plan has put appropriate actions in place to ensure delivery on the aspirations of Traditional Owners?

Somewhat

6a. Are there key priority areas of land you think should be added to the parkland network along the Yarra River?

No

6b. If you answered Yes, where are these key priority areas of land and why do you think they should be added?

Part 2: Land Use framework

7. The Land Use framework aims to put the Yarra River at the heart of future planning and development decisions. What is your / your organisation's view about the Land Use framework?

It sounds quite reasonable, it considers both environmental, commercial, and social aspects for the Yarra, would like to see the Indigenous people of Melbourne to have strong involvement in strategic decisions and land management, particularly along sensitive sights and important green corridors.

8a. Do you believe the Land Use directions will support the 50 Year Community Vision?

Yes

8b. Why do you think this?

Yes, it has implemented a lot of consideration on the uses and purposes of the Yarra, it heavily focuses on restoration and protection of environmental systems which is good to see.

9a. Do you agree with the Land Use directions for the Yarra River?

Somewhat

9b. Please outline your reasoning for this opinion (optional)

10a. Do you believe that the 13 significant places identified for the river corridor reflect the most regionally significant locations?

Somewhat

10b. Why do you think this?

Yes, they all have some significant connection to both Indigenous and non-Indigenous people of Melbourne, it provides a sense of inclusion and open mindedness

11. Do you agree with the opportunities identified for the significant places that you connect with?

12. Do you have any further ideas about how the Plan may provide for the cultural/spiritual/environmental care and protection of the Yarra River over the next ten years, whilst also working toward achieving the 50 Year Community Vision?

It is putting a greater importance on the environmental systems along the
