WILLOUGHBY STREET AND PENNANT PARADE, EPPING

LEGEND

EXISTING TREE

NEW TREE PLANTING

POSSIBLE TREE PLANTING

NOTE: Proposed new trees on Willoughby Street are to be Crepe Myrtle Lagerstroemia indica x fauriei 'Tuscarora'.

Proposed new trees on Orchard Street are proposed to be Water Gums Tristaniopsis laurina to match the existing.

Residents on the southern side of Willoughby immediately adjoining the bicycle path will be given the option to retain and move existing street trees if possible.

Alternative species such as Green Avenue Waterhouseia floribunda or Golden Rain Tree Koelreuteria bipinnata may also be considered subject to resident preference.
NOTE: Proposed new trees on Willoughby Street are to be Crepe Myrtle Lagerstroemia indica × f. 'tuscarora'.

Proposed new trees on Orchard Street are proposed to be Water Gums Tristanopsis laurina to match the existing.

Residents on the southern side of Willoughby immediately adjoining the bicycle path will be given the option to retain and move existing street trees if possible.

Alternative species such as Green Avenue Waterhousia floribunda or Golden Rain Tree Koelreuteria bipinnata may also be considered subject to resident preference.
