Other? Describe	
Will changes improve function of regs?	
Reasons	Improvement to guidelines but still need further specifications, eg associated landscape values and important flora and fauna habitats
Implementation issue with proposed changes?	Yes
Reasons	Significant anomalies in relation to forest logging on crown lands resulting in massive areas cleared of significant threatened species habitats, particularly montane ash forests, weed infestation and poor regeneration i.e. major changes to the original vegetation characteristics, impacts on water yield evident, increased susceptibility to fire and major loss of carbon sequestration.
