**Comments:** In constructing the North East Link, it will close down our family owned and operated business of 73 years. The value of our business is unquantifiable. 3 generations have worked in our business and the chance of another generation working in the company will be now lost forever. 2 other stores(Eltham and Tunstall Square) rely on our Bulleen site to process their garments. 73 years of history and customer service in this area is something that cannot be replaced. As a company that employs over 20 staff, it will be a sad fact that these people will be facing unemployment.
