**Subject:** Yarra Strategic Plan Panel: Relevant Background Documents

Dear parties,

To support the Yarra Strategic Plan Panel, relevant documents that were used to inform the development of the Yarra Strategic Plan and Land Use Framework have been uploaded to [imaginetheyarra.com.au](http://imaginetheyarra.com.au).

The documents uploaded reflect the primary background documents used to inform the draft plan. A list of these documents is provided below. Please note, those with hyperlinks have not been uploaded to Imagine the Yarra as they were too large for upload.

Please note, as a regional strategy for the Yarra River corridor, a much broader review of existing policies and strategies was undertaken to support the development. This includes a considerable number of strategies for each of our partner agencies. An indicative list of these documents will be provided with Melbourne Water's Part A Submission.

Background studies and core policies and strategies	Author
Central Region Sustainable Water Strategy Review	DELWP
Demographic study: Yarra Strategic Plan	.id consulting
Draft Economic Benefits of the Yarra River	Alluvium
Draft Land Use Framework Gap Analysis Report	Ethos Urban
