

SECTION 3 - QUESTIONS

Should the government consider the development and implementation of the policy proposals to restrict static betting advertising?

Yes, the government should consider the development and implementation of a policy to restrict static betting advertising on public transport assets.

What factors should the government consider in identifying locations where static betting advertising should be prohibited?

No comment.

Should the government consider prohibiting betting advertising on other mediums in or on public transport or near schools (e.g. digital advertising, audio-visual advertising)?

We consider that limiting digital advertising, posters and billboards located within a certain distance of schools as essential to increasing the benefit of the intended outcome to reduce enticement to children and adolescents.

What impact (economic, commercial and social) will the policy proposals have on:

- a) wagering service providers
- b) advertising agencies
- c) public transport operators
- d) sporting bodies
- e) members of the community?

As a public transport operator, we feel that the economic or commercial impact is not significant. As a community based bus operator, we consider the social impact of the proposed policy as a positive outcome.

What arrangements should the government put in place to enable wagering service providers to transition to any new arrangements?

No comment.

What other proposals could the government consider to minimise the harm caused by exposure to static betting advertising?

No comment.
