

We own property at [REDACTED], which is located within the township boundary of Kyneton as shown on Map 5 of the Macedon Ranges Localised Planning Statement Consultation Draft.

Kyneton has been identified as a regional centre in the Loddon Mallee South Regional Growth Plan and Plan Melbourne 2017–2050, and as such the Draft Plan proposes investigation areas for medium and long term growth. These areas are directly opposite us on the east side of Trentham Road, to the south of the township.

We are supportive of further growth within the Kyneton township but wish to ensure that land already within the existing township boundary, including land which is still currently zoned as Farming Zone to the south of the town, but contained within the township boundary, is allowed to be rezoned and fully developed before any consideration is given to rezoning or development of land for residential purposes within medium and long term investigation areas.

This is essential to ensure orderly development of the town.
