Fingerboards Mineral Sands Project Inquiry and Advisory  
Committee - EES

# 138

---

**Request to be heard?:** No - but please email me a copy of the  
Timetable and any Directions

**Full Name:** Caroline Drake

**Organisation:**

**Affected property:**

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** I am opposed to the Kalbar mine and in particular the risk of pollution, impact on farming communities and food production, and the drain on the water resource of the Mitchell River. It is ridiculous to think in these times - drought in particular - for our agricultural region, that such a proposal even exists. We've seen first hand what happens in areas where this has been allowed to go ahead - devastation. It must not be allowed to go ahead.
