Comment

Hi, how are you? I would like to express my concerns about our precious Australian wildlife. I would like to see more respect and understanding for the fragile and difficult environment our animals have to live in. I witnessed every day on our roads around Victoria, animals killed by our cars and trucks. I recently become an Australian citizen and I can see how many beautiful species we have in this country, but too many are disappearing and becoming extinct. We must protect them. In every way is possible. Thank you
