

# Submission on Macedon Ranges Localised Planning Statement

Sunday, 18 February 2018 4:07 PM

I live in the Macedon Ranges because it has a unique character and is not like Melbourne.

- This LPS is pushing Sunbury style growth into the Macedon Ranges turning it into an urban growth area!
- This LPS adds 800ha of future investigation area at Woodend, Kyneton and Riddell's Creek without demonstrated need, investigation or process.
- Expanded settlement boundaries for Gisborne and Romsey have not been published and will not be for another 18 months despite Gisborne already having the capacity for expected growth
- We need a statement from the State Government that gives our region the protection it needs to keep our character and environment without expanding the town boundaries.
