Request to be heard?: No

**Full Name:** Louise

**Organisation:**

**Affected property:**

**Attachment 1:**

**Attachment 2:**

**Attachment 3:**

**Comments:** I oppose the open cut mineral sand mine for many reasons: \*the possible contamination of the Mitchell River \*the possible contamination of crops grown in the area \*the possible contamination of meat or livestock \*the effects on the population that live in closer proximity to the proposed site eg, cancer causing substances that can be carried in the dust from the mine site \*aboriginal cultural heritage sites that could be destroyed by the mining of this area \*my youngest two children that attend school within a 20 km radius to the proposed site and all the other children who will have to live and breathe the filthy contaminated air radiating from the site. Thank you Louise Mornane
