Comments: Bulleen Art & Garden is an integral supplier to my business and has been for many years. BAAG not only supply soft landscaping materials to my job sites but I also collect various materials and plants from their premises because it is local to where I live and conduct my business. I am also able to direct my clients to their premises in order to identify suitable plants for use in their gardens. I have operated in the area for over 25 years and BAAG are a friendly family business that has supported my business for these many many years. It is impossible for me to find another supplier locally and will be a great loss to the community if it closes. When I visit BAAG it is always busy with many locals enjoying the nursery whilst shopping for their gardens. BAAG is a unique and wonderful business that would be greatly missed by not only their customers but the wild life that frequents the nursery. Please do not destroy this wonderful community asset.
