Dear IAC and Parties

Please see **attached** tables which compare the mitigations shown in the draft risk treatment plans against the mitigations shown in EES Attachment H and the Updated Mitigation Register (Tabled Document 505). A separate table has been prepared for each draft risk treatment plan (i.e. for biodiversity, airborne and deposited dust, noise, and water quality and hydrology).

We prepared the tables following discussions with the EPA and provided them to the EPA today. We are providing them to you in case they will also be of assistance to the IAC and the other parties.

Best regards,

**Kirsty Campbell** | Senior Associate
