

Wildlife Act Review

Submission Comment 207:

Contributor: Individual

Primary interests:

- Other: An Australian that wants to see our animals have rights

Comment

I would like to say our native animals are treated like rubbish we need to place kangaroos where we respect these animals not kill maime eat them and have stupid people kill them for fun 🚫 we need to have more respect and share our country with all gods creatures please change these outdated laws leave something alive for future children not in books or zoo
