Comments: As someone that has been operating an outdoor group personal training business in the area for 6 years, I welcome the proposal with great enthusiasm. The access from the Warringal Park across the Yarra River into the parklands on the other side will open up a variety of space and walking tracks to use. On occasion (for added variety) we make our way to the other side for recreational activity, but currently the group needs to run along the footpath of the busy Manningham Rd, which at times feels unsafe. Especially with trucks driving close to the curb. I have mentioned this proposal to some of our members, and they are very excited of the possibility of this plan. Such access could make it possible to build something a little different, like a launching pad for kayaks for example. With the number of people we see exercising down at the tracks and being a regular runner myself, I can see how many would embrace the idea to have both parklands accessible. Thank you for the opportunity to make this submission. Greg Shilo
