Comments: See attached submission

Dear Inquiry and Advisory Committee members,

I have to object to this mineral mine action of Kalbar, on many reasons.

1. I have no desire to have this mining company in my community .
2. I feel that the damage to the environment is absolutely disgraceful.
3. I have lived here for 41 years, surrounded by genuine hard working , vegetable producers, beef and sheep farmers plus the dairying industry.
4. Personally, I rely on the river water as my only source of drinking water.
It will become totally undrinkable and an absolute health hazard.
5. I have no access to town water.
6. I feel any such mine in this pristine environment, is an absolute disgrace.

This is a retrograde step to kill our vegetable farming empire and to make long time residents leave the area for health reasons.

Sincerely,
Pauline CAREY.
