

Do you believe the proposed regulations will encourage investment in the onshore conventional petroleum sector in Victoria?

No

If not, what would you like to see improved?

Investment in renewable energies

Do you believe the proposed regulations adequately support community engagement and consultation?

No

If not, what would you like to see improved?

Transparency

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to notice/submissions as part of application process for authorities (e.g. retention and production titles)?

We have no choice in the matter.

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to notice/submissions as part of Operation Plan?

We have no choice in the matter.

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to requirements for community engagement during the life of exploration, retention and production titles (as required in the title application)?

We have no choice in the matter.

What are your views on the proposed consultation requirements with the community and affected stakeholders in relation to requirements to describe community engagement during operations (as required in the Operation Plan)?

We have no choice in the matter.

Do you have any suggested improvements to the proposed regulations?

No

If yes what are your suggested improvements to the proposed regulations?

-

Do you believe the proposed regulations ensure that social, economic and environmental factors are adequately considered in decision-making for grant of Exploration, Retention and Production Titles?

No

If not, what would you like to see improved?

Investment in renewable energies

Do you believe that the proposed regulations ensure that social, economic and environmental factors are adequately considered in decision-making for Operation Plan approval/variation and authority surrender?

No

If not, what would you like to see improved?

The true impact on our environment

Are the proposed operation plan requirements to manage risks and impacts likely to be effective specifically as they relate to environment management plans, well operation management plans, code of practice of well operations management and rehabilitation plans?

No

If not, what would you like to see improved?

Concentrate on renewable energies instead

Are the proposed information and reporting requirements likely to be effective specifically as they relate to progress against a work program?

No

If not, what would you like to see improved?

Transparency in the work program

Are the proposed information and reporting requirements likely to be effective specifically as they relate to rehabilitation undertaken and changes in liability?

No

If not, what would you like to see improved?

Reporting will be ineffective and will not reflect the true liabilities.

Are the proposed information and reporting requirements likely to be effective specifically as they relate to results of monitoring undertaken?

No

If not, what would you like to see improved?

Reporting will be ineffective and will not reflect the true liabilities.

Are the proposed information and reporting requirements likely to be effective specifically as they relate to community engagement undertaken?

No

If not, what would you like to see improved?

There will be no community engagement undertaken

Are the proposed information and reporting requirements likely to be effective specifically as they relate to operational activities?

No

If not, what would you like to see improved?

The true impact on our environment

Are the proposed information and reporting requirements likely to be effective specifically as they relate to incidents?

No

If not, what would you like to see improved?

The true impact on our environment

Are the proposed information and reporting requirements likely to be effective specifically as they relate to geological data?

No

If not, what would you like to see improved?

The true impact on our environment

Do you believe that the new regulations will provide a clear and effective administrative framework that facilitates petroleum development activities?

No

If not, what would you like to see improved?

They do not reflect the true impact on our environment

Would you like to comment on any other aspects of the proposed regulations?

Yes

Submission 362319

If yes, please describe

How long will it take to realize we are destroying the very place we live in.
