Comments: I often drive/ride along Templestowe Rd and I support the widening of Templestowe Road, inclusive of a bike lane for cyclists to commute along. It is a great cut through from Heidelberg/Ivanhoe to Templestowe and Eltham, however uncomfortable to use during peak times due to the lack of a dedicated bike lane, and in sections no shoulder to ride on. Sections of the Main Yarra Trail are unpaved, and unsuitable for riding on road bikes - and Templestowe Road is a great alternative option without having to ruin natural parkland by paving the trail, and can be easily accomplished by painting a bike lane onto the widened road. My concern is that in plans it appears there is an intention to install more traffic lights along Templestowe Road. As a relatively regular user of Templestowe Road, I don't believe the addition of traffic lights is necessary and will negatively affect traffic flow.
