**Attachment 3:**

**Comments:** What will it take for the government to listen to the people who actually live in East Gippsland and who oppose this mine? It's clear that the majority the residents of East Gippsland don't want this mine to go ahead, after all we're the ones who will be affected. Our whole region will be affected. People come here to enjoy the natural beauty of the place. We don't want a mine here!! Please think hard about this and listen to us, the residents of East Gippsland!
