Comments: Please do not allow this mine to go ahead. I spent my childhood hiking, camping, fishing and exploring in this beautiful part of the world. I intend for my children to do the same. Local businesses heavily rely on tourism through the area and are already under immense strain following the bushfires and COVID-19. To risk the beauty of this area threatens the very fabric of these communities, businesses and individuals, not to mention the extraordinary natural beauty and wildlife that call this area home. Please, please, please - do not allow this wonderful area to be destroyed
