Dear [REDACTED]

Re: Councils and Emergency Directions paper - Response

On behalf of the MFB I would like to thank you for providing the opportunity to review and provide comment on the Councils EM directions paper.

Feedback was sought from a wide internal audience of individuals and departments. It was felt that the responsibilities and the associated tasks detailed for each core capability were consistent with our understanding and expectations.

A single question was raised in regards to the core capability of impact assessment. It was not clear if councils were to exploit the information gained through Emergency Services impact assessment or the intention was to duplicate the activity. In the circumstance that the activity is to be duplicated consideration should be given to incorporating intelligence from other assessment data where relevant.

Yours sincerely
