

Wildlife Act Review

Submission Comment 269:

Contributor: Organisation – Beaconsfield Upper Conservation Group

Primary interests:

- Protection and conservation of wildlife and habitat

Comment

Thank you for the opportunity.

The Beaconsfield Upper Conservation group strongly advocates for more protection of our biodiversity / habitat. Stronger laws and more education is required about the protection of our native wildlife. This is not limited to 1. Stronger land clearing laws, enforcement and penalties (and education!) 2. Weed management and education 3. Feral animal management and eradication (Deer is the worst emerging feral animal in our area and must be declared a pest.) 4. Creation of wildlife corridors 5. Decrease wildlife traffic deaths.

Carl Hirst, on behalf of the UBCG
